

Hello everyone,

This is a difficult letter to get started. I don't want to start out talking about these times being unprecedented or how the coronavirus is impacting our lives. I've generally tried to start out with something clever, something about an upcoming event, or a reminder that spring (or car show season) is right around the corner. It's not been a very good year for my family as my father-in-law passed away unexpectedly at the peak of the virus from a heart attack. While it feels like everything is at a standstill, life goes on virus or not. I hope that you and your families are healthy, you have what you need, and are able to find enjoyment in how your days are filled.

I'm sorry to say that there's not much good news in the news that follows. The board recently met to discuss some of the upcoming events and made some tough choices. The club meetings for June and July, the Spring picnic, and the 2020 Fun Run have been canceled. These decisions were based on a few unknowns, not least of which being the Cumberland County recovery plan status. These activities are great examples of what the Blue Moon Cruisers are all about; fellowship, charity, and spirit. While the picnic and Fun Run are flagship events that reinforce these qualities, I've observed the same recently through the drive-by parades and check in phone calls. The heart of the club is strong and we'll get through this.

In the event that you've purchased your Fun Run raffle tickets, there are two options. We will hold and honor the tickets in 2021 or you may send a written request for a refund to Glenn Martin.

If anyone learns of a drive by parade or would like to initiate one, please contact a board member to spread the word. A long line of rods, classics, and muscle cars brighten people's lives.

Please stay safe, healthy, and I look forward to seeing everyone when we are able to meet again.

Alan
